**Flexible remote and hybrid roles supported by
250+ regulatory experts worldwide.**

Certara accelerates medicines using proprietary biosimulation software and technology-driven services to transform traditional drug discovery and development. Its clients include more than 1,650 global biopharmaceutical companies, leading academic institutions, and key regulatory agencies across 61 countries.

We share one vision and mission: to save and improve lives

For more than a century, we have been inventing to solve some of the greatest challenges to people's health and well-being around the world. Today, we continue our commitment to be the premier research-intensive biopharmaceutical company in pursuit of medical breakthroughs that benefit patients and society for today, tomorrow and generations to come.

Our Medical Writing Department strives to be the premier regulatory documentation organization in the biopharmaceutical industry. Our Medical Writers are integral to helping bring medical breakthroughs to the world by developing high-quality deliverables that support the clinical regulatory writing portfolio.

SYNTEREX

*The agile clinical and
regulatory consulting firm™*

**Delivering quality regulatory
documentation requires navigating
an evolving landscape influenced
by regulators, research committees,
healthcare professionals, and—most
importantly—the scientific method itself.**

At Synterex, we forge lasting and meaningful relationships that flex with the dynamic nature of science and technology. Whether you need us to drive the completion of a project or you need contingent support to extend your own team, we specialize in strategies to expedite the development of high-quality deliverables that satisfy the structure and rigor of the regulatory environment and get important therapies to patients sooner.

Talk with us today to find out more about our services or learn how to join our team.

Medical Writing at ICON

ICON employs a dynamic, cross-functional team approach to Medical Writing.

Medical Writers at ICON are aligned to a single sponsor and work in a wide variety of clinical indications with more than one operating model supporting:

- Early Development Writing
- Quality Review and Editing
- Regulatory Publishing
- Clinical Trial Transparency
